VKØ-HEARD ISLAND

A multi-National team will operate from Heard Island from November 12th to December 1st, 1995. Operators at press time include; KØIR, ON6TT, KK6EK, HB9AHL, PA3DUU, K5VT, JH4RHF, N6EK, and DJ9ZB. This group will leave Fremantle, Western Australia on November 1st and arrive at Heard Island around November 12th.

Permission for the operation has been granted by the Australian Government. A 140 foot vessel has been chartered for the 5,000 mile round trip to Heard Island. Landing will occur whenever weather permits and operation will commence ASAP. Winds on the island regularly exceed 100 mph and blow snow, sleet, rain, and sand, all at the same time. This makes landing and departure extremely difficult.

Operation will be on all bands 160-10 meters including the WARC bands on CW-RTTY-SSB including satellite. Equipment has been donated by Yaesu, Cushcraft, and ETO.

This operation needs your support. Contributions from N.A. may be sent to: The Heard Island Expedition, P.O. Box 563, Waite Park, MN 56387-0563. Other contributions can be sent to JH1AJT, ON6TT, and VK2BEX. JH1AJT, ON6TT, and VK2BEX are coordinators for their part of the world.

Further information will be forthcoming as they near the expedition date. Tnx to Ralph, KØIR, for informing INSIDE DX subscribers.

ZK3- TOKELAUS

Ron, ZL1AMO, was QRV from here starting around June 21st signing ZK3RW. Ron has been active on all bands 160-10 meters on CW-SSB. He should be QRV for another week. Watch the usual DX frequencies for Ron, he has been active especially on 80 & 40 meter CW. QSL via ZL1AMO.

PYØ-TRINDADE ISLAND

PU1LOK, opr. Sergio, is active from this one signing PUØTRI. Sergio is QRV on 80 and 10 meter SSB only. Watch 28300, 28500, and 3795 for his signals. He will be QRV until October and then return home to answer the QSLs. QSL via Sergio S. Mendes, Rua Visconde de Santa Isabel, 692 apto. 202, Grajau, 20560 121 Rio RJ, Brazil.

On last years PYØTUP operation, if you still need a QSL, it has been rumored that you might try OE2DYL with \$2.00 for postage.

YS-EL SALVADOR

Carl, YS1ZV, is quite active on 40-10 meters including the WARC bands on CW and SSB. Carl states he like both 10 and 17 meters when they are open. He operates the other bands when these bands are closed. He will be QRV from his San Salvador QTH for 3 more years. QSL via KB5IPQ with an SASE please.

A5-BHUTAN

Jim, VK9NS, states he will be QRV from a rare one by the time you read this issue. It is you editor's opinion that Jim will be QRV from Bhutan for the next 10-14 days. Watch for A51JS on all bands on CW-RTTY-SSB. QSLs via VK9NS. A second possibility is an operation from S2, so watch the usual DX frequencies for the pileups.

TY-BENIN

Ken, WA4OBO, will be QRV from here several different times over the next 2 years signing TY8OBO. Ken has a valid license for this one in hand. He will be QRV on all bands with emphasis on SSB. QSL to homecall.

ZB2-GIBRALTAR

N7RK's operation from here scheduled for June 23-30th has been canceled. He will be QRV from here at a later date.

SV-MOUNT ATHOS

Rumors on this one have been from they do not have proper license approval to it's a GO. The operators state they are properly documented and will be QRV on July 6-9th on all bands 80-10 meters on CW and SSB, signing SVØGV/3. On CW-3510, 7015, 14010, 21010, and 28010. SSB-3780, 7075, 14255, 21255, and 28455. The operators are Peter, KC1QF, and Andreas, SV1BKN.

TF-ICELAND
